RESPONSE TO REED SATO
DIRECTOR, OFFICE OF ENFORCEMENT

TO: Mr. Michael Thomas
Central Coast Water Board
895 Agro Vista Place
Suite 101
San Luis Obispo, Cal. 93401

Dear Mr. Thomas:

This entire case and its prosecution, the basis for the prosecution and the hearing board is basically an adulterated and overwhelming case of the most prejudicial proceedings I have had an opportunity to observe in my three quarter of a century of existence. It is an abuse of power, reminiscent of the days of Lords and despotic kings, wherein you had charges with no basis of proof, (our septic tanks are polluting the basin) leveled against you brought before a tribunal or some other source of archaic proceedings, not allowed to subpoena witnesses: Shirley Bianchi, Jerry Gregory, Pandora N. Karner, or cross examine your chief accuser Mr. Roger Briggs who is being sequestered or sent out of the area so that his culpability in this entire matter can be kept hidden and we are being told will be out of the country for six months starting in mid October. How convenient these entire proceedings smell of collusion and depravity. The reams of evidence against the chief architect of this entire drama of governmental witch hunting and collusion with the previous corrupt board and Pandora N. Karner is so well documented with reams of evidence and E-mails between the egregious parties that the smell of wrong doing, illegal acts, possible perjury, smell worse than any open sewer could ever smell.

By reviewing your unfounded and unproven allegations of wrong doing against the citizens of Los Osos with your un-warranted Cease & Desist orders and your proposed and threatening orders to prosecute the town of Los Osos and its families and home owners shows un-equivocally your extreme bureaucratic elitism and penchant to use your hobnail boots to subjugate the common decent hard working people of Los Osos and by narrowly limiting the scope of avenues for our defense you have like a samurai warrior with no honor or respect for us, trampled our constitutional rights, abrogated our liberties and our right to the peaceful and safe enjoyment of our homes. I will repeat and repeat again, your agency for a matter of fact, has not proven that I and many of us are polluting. The only thing being polluted is our democratic rights. We are accused of being guilty because you say we are. In reality we are innocent until proven guilty, as required under our constitution.

You, gentlemen, are making a quantum leap backwards. You have forgotten that we have renounced the tyranny of King George over two hundred years ago. We intend to repel your specious arguments if not in your antiquated musty and archaic arena, then in a open court of law where your misguided deeds and unwarranted actions will see daylight and justice.

We hereby reference our objections to Mr. Reed Satos letter to you of June 19 by prefacing our Remarks and incorporate with evidence and testimonies submitted by Bill Moylan, Rob Shippe, Rhiana Gulassa, Gail McPherson and Beverly DeWitt Moylan.

Lastly, if needed, I reserve the right to have whomever I select to assist us with our presentation.

Sincerely,

ALAN R. MARTYN

JACQUELINE C. MARTYN
